

INSTITUTO SUPERIOR DA MAIA (ISMAI) - PORTUGAL

INTERNATIONAL OFFICE

Dear Colleagues,

I'm Liliana Marques, the LLP ERASMUS coordinator at the Higher Institute of Maia, located in the north of Portugal. Our Institution is highly interested in enlarging our Bilateral Agreements in the **Arts and Multimedia** area of studies, within the *LLP ERASMUS Programme*, considering the increasing number of students who wish to go study abroad, namely in British Institutions. Thus, we would like to know whether your Institution would like to become involved in this partnership.

ISMAI was founded in 1990 and participates in this International Programme since 1997 and we believe that this link would be fruitful for students, teachers and staff from both Institutions.

Our Educational offer (accordingly to the Bologna Process) includes studies in...

- Psychology
- Health and Safety at Work
- Sports Management
- Physical Education and Sports
- Criminology
- Applied Languages to the International Trade
- Human Resource Management
- Business Management
- Multimedia Communication Technologies
- Information System and Software
- Arts and Multimedia
- Tourism
- Public Relations
- Psychosocial Counselling
- Accounting
- Communication Networks and Telecommunications
- Legal Assistance
- Communication Sciences
- Management Computer Science

Your students can have all the subjects they want from the existing degrees at our ISMAI.

Please consider carefully our proposal and give us a positive answer!

We would appreciate your prompt response.

Kind regards,
Liliana Marques
