<u>Brief description of university, faculty, department, number of students:</u>		
<p>The Polytechnic Institute of Leiria (IPLeiria) is a Portuguese public institution of higher education currently having about 980 teachers, 11.000 students and modern facilities and equipment. The development of R&D and cooperation activities is a strategic priority for IPLeiria which has been increasing significantly the number of industrial property requests, fellowships and scientific publications. IPLeiria develops mainly applied research, has 13 research units and 4 delegations from other national R&D institutions. Its teachers/researchers are involved in several national, european and international R&D projects, strengthening partnerships with companies and other education and research institutions.</p> <p>IPLeiria has several schools, among which the School of Technology & Management. This school is also divided in functional units, one of which is its Civil Engineering Department. The Civil Engineering Department has about 20 teachers/researchers, which are PhD holders on several scientific areas (structures, construction, urban planning, transportation and mobility, hydraulics, geotechnics remote sensing and geographic information systems). The Civil Engineering Department is responsible for lecturing a first cycle degree in Civil Engineering and a Master degree also in Civil Engineering, both in accordance with the Bologna process. The Civil Engineering Department is very well equipped with several research facilities.</p> <p>Currently, IPLeiria is proactively involved in several international programs and activities, following a coherent internationalization strategy. The Civil Engineering Department has been taking part in some international partnerships such as:</p> <ul style="list-style-type: none"> - Erasmus Mundus Acción 2 - CRUZ DEL SUR - Enhancing University Internationalization for Comprehensive Development in Latin America - Project number: 551456-EM-1-2014-1-ES-ERA MUNDUS-EMA21 - Tempus - RETHINK - Reform of Education THru INternational Knowledge exchange - Project number: 544178-TEMPUS-1-2013-1-PT-TEMPUS-JPCR - INternational Fellowship IN transdisciplinaryTY - INFINITY - project of the Erasmus Mundus programme (Action 2, Strand 1) - is funded by Erasmus Mundus Programme of the European Union. Project ID Nº 545681-EM-1-2013-1-PT-ERA MUNDUS-EMA 21 - Project T.aT. "Students Today, Citizens Tomorrow", European project co-funded by the Intelligent Energy for Europe (IEE / 07/239 / SI2.466287) in a partnership between higher education
